

Discount Dental Plans & Dental Insurance

A comparison guide to help you make an informed decision

Discount dental plans are an affordable, easy-to-use and hassle-free solution for anyone looking for dental care savings. Below is a comparison guide between discount dental plans and dental insurance to help you make an informed decision.

Some of the characteristics of Discount Dental Plans include:

- ✓ No annual limits - plan members enjoy discounts on most dental care services all year long
- ✓ Most plans activate within 3 business days
- ✓ No tiresome paperwork hassles - plan members simply present their membership card at a participating dentist office for discounts on most dental services
- ✓ No health restrictions - there is no need to wait for comprehensive dental treatment plans
- ✓ Select plans include discounts on dental specialties, including cosmetic dentistry and orthodontics
- ✓ Consumers pay affordable membership fees for access to a network of dentists offering discounts on most dental procedures
- ✓ Available directly to individuals, families, businesses and groups

Some of the characteristics of Dental Insurance include:

- × Limitations, deductibles and annual maximums
- × Waiting periods for major dental procedures
- × Tedious and time-consuming written claims process
- × Limitations/exclusions on pre-existing conditions
- × Certain dental specialties, such as cosmetic dentistry, are rarely covered
- × Consumers pay expensive monthly premiums for defined coverage
- × Typically inaccessible to individuals and families unless provided by their employer

Even if you already have dental insurance, the discounts offered by our discount dental plans may be used after your dental insurance plan maximum has been reached for even more savings on your dental care. Please consult with a participating dentist or dental care specialist before beginning treatment.
